Security and Data Segregation

Connxus maintain the highest levels of data security and privacy in the industry through its HiTRUST and TX-RAMP certifications that guarantee the Confidentiality, Integrity, and Availability (CIA) of data. No data breach has ever happened by an HIE nationally.

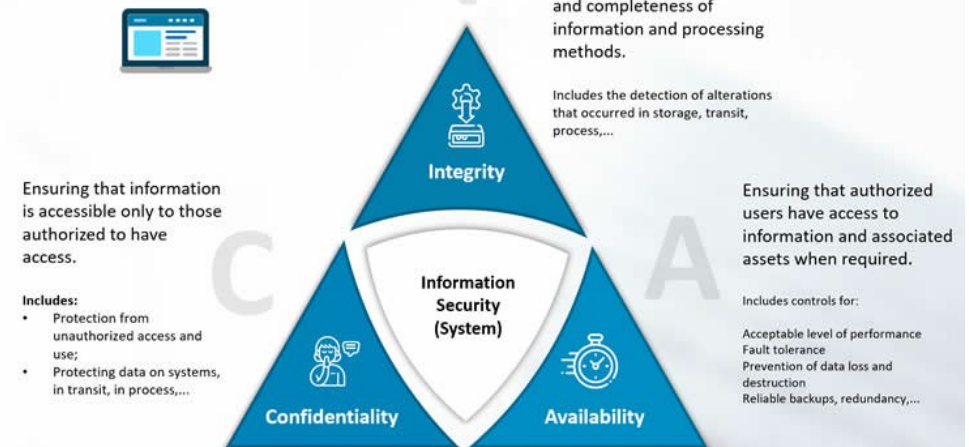

We maintain over 50 security and privacy policies and procedures to maintain data privacy complying with state and federal regulations (HIPAA, FERPA, etc.) that are governed by our members through committees, legal teams, and task forces.
